PREFACE

Following is the Final Statement of Vote of the November 3, 1992 Presidential General Election in San Francisco.

There are two lines for each precinct. The first line indicates the absentee votes and the second line indicates the polling place votes. The turnout percentage is only for the polling place votes. In order to determine the total turnout for a precinct you must add the absentee and precinct votes together. Then you can compare that number with the number of voters in the precinct to determine the percentage turnout for the precinct.

There were three mail-ballot precincts in this election: 3142, 3199, 3899. These precincts have no polling place, and all voters receive ballots in the mail. Also, there were 12704 ballots which were not sorted into precincts. These were absentee ballots and some provisional ballots which were received at the polling places on Election Day and were counted after all the precinct ballots. These appear in each section of the Statement of Vote as one of the seven ballot types used in this election (e.g., Ballot Type 001, Ballot Type 002), and in neighborhood summary reports as "Non-designated."

Included in this document is a Summary Report, which precedes the Statement of Vote. After the Statement of Vote is a list of precincts showing the neighborhood and political districts for each precinct. For your reference, we have included a neighborhood map.

This document is also available on diskette. For additional information regarding election results, please contact Gregory Ridenour, Administrative Manager, at (415) 554 - 4375.

Thank you for your interest in our election. We hope you find this document helpful. If you have suggestions for improving our format for future elections, please let us know.

Germaine Q Wong
Registrar of Voters
